# WHERE WE ARE LOCATED

# WHO WE ARE

We are Sofruco Alimentos Ltda, a subsidiary of Sociedad Agrícola La Rosa Sofruco S.A., a Chilean company with over 100 years of history in the agricultural and food business.

We deliver our customers and consumers, NATURAL, HEALTHY foods, which are carefully selected to ensure maximum QUALITY.

# COCALÁN PALM GROVE

La Palmería de Cocalán National Park, located in the VI Region of Libertador Bernardo O'Higgins, Chile, is one of the largest natural reserves of the Chilean Palm (*Jubaea Chilensis*) declared in danger of extinction several years ago.

This wonderful park is an integral part of our company and we are committed to the preservation, conservation and care of its incredible and diverse flora and fauna.

The Chilean Palm can live for more than 2,000 years and reach heights of over 30 meters. La Palmería de Cocalán is the second national park with the largest number of Chilean palms in our country, featuring more than 40,000 specimens that give life to a magical and unique place.

We work daily to preserve this corner of the earth for future generations, that is our commitment.

Give your days a shot of energy with our nutritious and healthy Wellmix Energy.

## COQUITOS

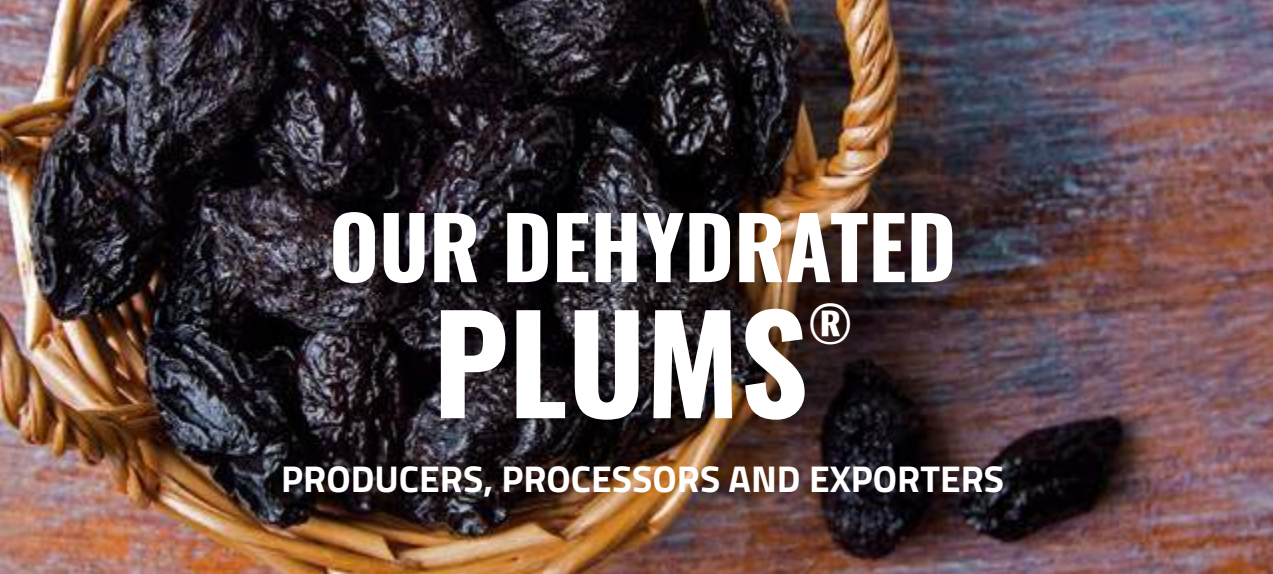

Eat healthy and energize your days with our nutritious Wellmix Coquitos.

## MANDARINAS

A great way to add vitamin A and C to your diet is with our crunchy Wellmix Mandarin.

# OUR DEHYDRATED PLUMS®

PRODUCERS, PROCESSORS AND EXPORTERS

Renown for their excellent attributes of size, color and mainly their sweetness which are obtained by the tireless passion of our people for this noble fruit and the generosity of our fertile soils.

**Harvest** usually begins in early February. We have developed techniques to have a fixed harvesting speed and at the same time not damage the tree which bears the fruit and is our main asset.

Once the plums are harvested, they are **dried** in hot air tunnels, thus guaranteeing safety and hygiene. The plums never touch the ground or are exposed to external elements.

The plums then go through tenderizing, pitting, splitting and packing processes with the best technology and highest standards in the world for this industry with Ashlock® and Elliott® machines. This results in the sweetest, softest, moistest and most tender prunes you will ever taste.

Our processes are certified:

**IFS, HACCP, KOSHER, HALAL and GLUTEN FREE**

Add dietary fiber to your day with this amazing combination of mango-orange blend.

AVAILABLE SIZES

### RASPBERRY

A tasty and refreshing way to provide nutrients and vitamins to your body.

AVAILABLE SIZES

# OUR JUICES

One of the main characteristics of Fundo Sofruco's juices is that they are made with squeezed fruit and maintain high quality standards in all processes. The result is 100% natural and healthy juices.

Most flavors are made directly from produce from our fields. We chose the best fruits at the best time to guarantee quality. We are a pioneer company in the production of citrus fruits in Chile.

To produce our juices, we squeeze the fruit in our own facilities, using the finest technologies, ensuring quality of the process at all times with UHC (Ultra High Clean) technology, assuring a contaminant free environment.

## OUR HONEY

Use the properties of honey to help boost your immune system.
